Your journey starts here!

Visia Skin Assessment and Consultation

R400

A comprehensive complexion analysis with our aesthetician, using photographic imaging technology, that indicates the extent of skin photo-damage, wrinkle development, pores, texture and pigmentation. Visia enables the development of a **customized** treatment protocol, and **measurability** of the results.

*We offer the Visia skin assessment **complimentary** on your **first** visit to our clinic

AESTHETIC TREATMENTS

Superficial Chemical Peels

A great way to restore younger, healthier and more balanced skin tone. Chemical peels remove the outer layer of skin, which has been damaged by years of exposure to harsh UV light and other environmental factors. The process of chemical exfoliation stimulates the re-organization of healthy skin cells. Regular maintenance peels, allow for correct cell functioning and better product absorption.

Mesoestetic Mesopeels

45 min/ From R650

These peels are an effective anti-aging and brightening treatment which provides accelerated skin regeneration in the superficial layer of the skin.

Skinceuticals Dermaplaning

60 min R950

This Treatment is designed to superficially remove any vellus facial hair and superficial dead skin combined with a gel glycolic-lactic peel indicated for intense moisture and rejuvenation.

NeoStrata Glycolic Peel

45 min R550

This is a highly effective superficial peel that is clinically proven to achieve outstanding and predictable results.

Resurfacing / Anti-aging / Acne / Barrier Repair / Pigmentation.

Advanced Chemical Peels

These peels work on the deeper levels of the skin. They have a longer downtime. To achieve the best outcome, these treatments should be done as a course

Skintech TCA Peels

New patented technology allows Skintech Easy TCA to safely give results comparable to papillary dermis depth peels. Skin preparation is required before and after

Melasma / Rejuvenation / Acne / Acne Scars / Pigmentation

A course of 2 EASY TCA Pain Control Peels	R3 000
A course of 3 EASY TCA Pain Control Peels	R4 000
A course of 4 EASY TCA Pain Control Peels	R5 000

Includes a Skintech product pack: Melablock SPF and a face

Elaine Brennan Skin Renewal Peel

120 min /R6000

This is a combination peel consisting of Resorcinol and Salicylic Acid for the treatment of deep seated wrinkles, post acne scarring, uneven and blemish skin, acne and pigmentation.

Course of 4x treatments recommended for ideal results

Microneedling

Microneedling is a minimally invasive, non-surgical and non-ablative procedure for facial rejuvenation that involves the use of a Microneedling device to make tiny punctures to create controlled skin injury. This triggers the body's wound healing process, stimulating collagen and elastin production.

Face and Neck 90 min R1450

Course of 4x treatments R4600 (save R1200)

Face, neck and Décolleté R1700

Course of 4x treatments R5600 (save 1200)

Microneedling PRP (Platelet Rich Plasma)

A treatment to rejuvenate the skin using your own blood plasma to stimulate cell growth and collagen production.

Face and Neck R3600

Course of 4x treatments R12400 (save R2000)

Medical Facials R750

A luxuriously pampering, introductory range of

treatments ideal for the client who is stepping into the world of medical aesthetics. Our advanced medical grade facials are customised to each individual patient's skin type and condition, meaning that no two procedures are the same. We are driven by delivering results, while keeping the element of relaxation a priority

Omnilux Photodynamic Therapy

Photodynamic therapy stimulates natural cellular processes that rejuvenate and repair the skin. PDT

combination light therapy targets specific cells which are responsible for the synthesis and repair of the

skin's supportive structures, leading to a softening of fine lines and improved skin tone.

Stand alone treatment R400 Add on to a treatment R200

Course of 6x treatments R2700 (saving of R900)
