### THE SCIENTIST R400 | 20min

Skin analysis with Visia® imaging technology. Highlights aspects of the skin invisible to the human eye and allows us to make scientific recommendations for targeted results.

### THE PEACOCK R860 | 60 min

Customised luxury facial treatments. The ideal choice for relaxation with results. Comprehensive skin experiences that promote cell renewal to brighten complexion and tone the skin.

### THE PRELUDE R570 | 45min

A professional teen facial designed to address the challenges of adolescent skin and educate teens for long term results.

### THE METAMORPHOSIS R860 | 60 min

Rejuvenating chemical peels are ideal for maximising skin health and have no downtime. Designed to remove the damaged outer layer of skin, to reorganize deeper skin cells into a healthier formation and improve the absorption of home care products. Specific peels are used to target various concerns such as, hyperpigmentation, photoaging, fine lines, acne, rosacea, sensitive skin, inflammation, dehydration and pigmented spots.

### THE WORKHORSE R1790 | 75min

Microneedling with the patented Dermapen 4™ medical device, allows controlled skin injury which triggers the skin's natural healing process. Assists the regeneration process through stimulation of collagen and elastin production, improved circulation, and nourishment to the skin. It improves surface texture, pore size and pigmentation.

### MESOTHERAPY R1950 | 60min

Active ingredients targeting specific skin concerns like ageing skin, pigmentation and free radical sun damage are deposited into the deeper layers of the skin using our VITAL injector™. Rejuvenates, tightens, improves blood circulation, and stimulates collagen and elastin production.

### THE GREAT RE-SURFACERS From R950

Working on the deeper layers of the skin, these advanced chemical peels have more dramatic results but can carry a longer downtime. These treatments stimulate the regeneration process at a dermal (deep) level and are recommended for treatment of deep-seated wrinkles, post acne scarring, uneven skin tone, laxity and pigmentation.
